Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Salvo** in view of **Baird** [US. 911,363]

For claims 13-16, **Salvo** discloses all the claimed limitations wherein a portable remotely unit 26 computing and display tennis scores for all tennis scoring situations, the input wirelessly receives from at least one remote control unit (22, 24) [Fig. 1-3, col. 1, lines 64-68], except for not specifically disclose the flip disks and the display only consumes power when flipping the disks. It is well known in the art that the scoreboard uses electrical lights, mechanical flip boards, or electromechanically flip disk showing the game score to the participants as well as the audience. Since either method providing the desired functionality, namely showing the score, it is up to user's discretion to determine which mechanism to use. **Baird** teaches a well-known scoreboard using flip plates controlled by keyboard 2 combined with electro-magnet 21 to show the score to the audience. It is clear that the board would consume power when there is merely need to flip the plate when changing score by depressing one of score key on the keyboard (2), current apply to electromagnet 21 from battery 23 which enable the escapement-arm 14 that causes plate (3) flip [as shown in Fig. 1-3, page 2, lines 20-70], after flipped the plate mechanically held by the

detent (16, 17) at this point there is no power apply to the electro-magnet 21. Therefore, it would have been obvious to the one of ordinary skill in the art at the time of the invention was made to use either the LED display disclosed in **Salvo** or the well known scoreboard taught by **Baird**, since either method providing the desired functionality, namely showing the score.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
